Final draft

In the VA, many patients (Nishe) <sup>chapter 1</sup> into a pro-patient clinic in 1961. The American Medical Association said vets should be treated in hospitals by their selves. In January 2014, CNN reports said at least 19 Veterans died at VA hospitals in 2010 and 2011 because of the delays in medicine and treatments. On April 9, many people said "This is an American disaster, and this shouldn't have happened."

Double <sup>chapter 1</sup> **Bradly Walker** had been going through physical therapy or trying to work his leg to get used to a computerized bionetic leg. During his wait <sup>chapter 1</sup> five veterans died while waiting for appointments to see a doctor at <sup>chapter 1</sup> the Phoenix Veterans Affairs health care system, so it has been broadcasted in CNN reports. So he was still waiting for his leg.

In the 1970's, other veterans grew extremely frustrated for failing to find better funds treatments and assistance programs for other people. Many people were in shock, because many veterans died in their own hospitals, so veterans wouldn't understand what's going on.

chapter 2

Many people said that veterans died waiting for appointments in the latest in a long line of VA scandals. It has been trouble in veterans care as old as the country. So the VA sleazebag Eric Shinseki admitted in a conclusion, it has been a tough time for the veterans, year by year.
