

Module 1

Name: Emily

Date of Project: 12-5-17

Learning Target: I can describe the challenges that other countries face with access to books.

Description of project:

In this project we learned how some countries have trouble getting access to books. We made bookmarks to send to Ethiopia, and we did a book drive so Ms. Lindy could go to a book store to trade in books and get the ones kids want. Ms. Lindy brought the books to Inlet Harbour where kids have poor access to books.

How did this project help you grow as a learner?

This project helped me learn that kids in some countries don't have access to books, but we can help that. I also learned that kids who have poor access to books want books over candy or sweets. That is how much kids want books.

How did this project help you grow as a person? (think about the habits of scholarship)

This project helped me as a person by helping me know that I should be thankful for what I have. This project also helped me learn that reading is very important, and it is really important to kids who have poor access to books.

What could you do to make this project even better next time?

Next time I do this project I will do better of learning how kids who have poor access to books get there books.
